About The Financial Consolidation Survey 24

More information:
barc.com/de/reviews/

The Financial Consolidation Survey

The Financial Consolidation Survey 24 is based on findings from one of the world's largest and most comprehensive surveys of financial consolidation software users, conducted from September to October 2023. In total, 531 people responded to the survey. Altogether, 9 products (or groups of products) are analyzed in detail.

The Financial Consolidation Survey 24 examines user feedback on financial consolidation product selection and usage across 29 criteria (KPIs) including Business Benefits, Project Success, Recommendation, Customer Satisfaction and Competitiveness.

This document contains just a selection of the **headline findings for OneStream**. It does not show all the KPI results and focuses mainly on the positive findings.

The KPIs

The Financial Consolidation Survey 24 provides the reader with well-designed KPI dashboards packed with concise information, which can be absorbed at a glance.

The KPIs all follow these simple rules:

- Only measures that have a clear good/bad trend are used as the basis for KPIs.
- KPIs may be based on one or more measures from The Financial Consolidation Survey.
- Only products with samples of at least 15 - 20 (depending on the KPI) for each of the questions that feed into the KPI are included.
- For quantitative data, KPIs are converted to a scale of 1 to 10 (worst to best).
- A linear min-max transformation is applied, which preserves the order of, and the relative distance between, products' scores.

The terms 'top-ranked' and 'leader' are used in the chart titles. 'Top-ranked' indicates first position. 'Leader' denotes a position in the top three.

About OneStream

OneStream overview

OneStream Software is an independent US-based CPM software company backed by private equity investors. Headquartered in Birmingham, Michigan, USA, the company has offices in North America, Europe and APAC with more than 1,300 employees globally.

OneStream is a unified platform that supports various CPM processes and information streams in organizations. It integrates financial consolidation and close, planning, budgeting and forecasting, reporting, analysis and financial data quality management in one single application. In addition to the its standard functionality, the OneStream Solution Exchange provides more than 75 prebuilt business and productivity solutions that allow customers to extend the platform with additional capabilities in areas such as finance/accounting (e.g., account re-

conciliations, transaction matching, tax provision, ESG, etc.), financial planning and analysis (e.g., specialty planning solutions, ML-enabled forecasting, etc.) and for specific industries. Solutions in the Solution Exchange are provided by OneStream, partners and the broader OneStream ecosystem. All OneStream-developed solutions are fully supported and available free of charge to active customers.

OneStream is ideally suited to mid-sized to large enterprises across all industries who require a unified, robust and complete CPM solution. The vendor employs a direct sales model alongside its partner network to support customers with implementation services. According to the vendor, more than 1,400 customers currently use OneStream, and the company is in a period of strong growth. OneStream is available for deployment in the Microsoft Azure cloud.

OneStream is a financial consolidation and planning platform with built-in financial data quality functionality that focuses on supporting the full range of CPM processes. The product provides a proprietary in-memory financial analytic engine with built-in financial intelligence (e.g., supporting complex financial consolidations) that uses ROW-LAP storage in Microsoft SQL Server. Company-wide consolidated financial results, statements and plans at subsidiary or group level can be created. In addition, Extensible Dimensionality® provides the ability to extend the account and other dimension structures to support both corporate and line-of-business financial and operational planning and reporting in one single solution.

About OneStream

View full
profile:

barc.com/de/review/onestream/

Fully supported operational planning solutions in the Solution Exchange – including workforce, capital, cash and sales planning – feed into the financial model. Moreover, the empowerment of users with AI and ML for tasks such as predictions, scenario analyses and to automatically find insights and take actions is an important area of continued investment for OneStream. To create, maintain and deploy predictive models across financial and operational planning processes, OneStream offers several options. AI-enabled solutions such as Sensible ML offer scalable AI purpose-built for finance, operations and data science teams. Sensible ML provides a guided experience to build, deploy and consume time-series ML models for auto-generated forecasts inside OneStream.

In addition to its core capabilities, OneStream also integrates functionality for BI and analytics. For individual, flexible (ad hoc) reporting and analysis, the product includes a reporting studio, spreadsheet interface and Excel add-in. Interactive dashboards can bring key financial and operational metrics together by combining tables, charts, graphs and other visualizations. In addition, Analytic Blend includes a relational column store engine that blends detailed operational data with financial data. Financial analytics, detailed operational analysis or a “blended” view of both can be presented within the same dashboard. For those customers following a Microsoft strategy for analytics, a OneStream Power BI connector offers direct integration with Power BI via a certified API to create reports and visualizations with Microsoft’s software based on OneStream data.

BARC Comment

With six top ranks and 14 leading positions, OneStream achieves an excellent set of results in this year's Financial Consolidation Survey. Convincing ratings in numerous important KPIs help to consolidate its position as a market-leading financial consolidation and FPM platform that delivers considerable benefits to its customers. Companies can benefit from using OneStream in terms of better integration of group consolidation with internal management reporting, improved software user satisfaction and a better quality of consolidation results. 95 percent of OneStream users say they would "definitely" or "probably" recommend their financial consolidation product to other organizations – a strong result and a great indicator of customer satisfaction with the vendor and its product.

Data Decisions. Built on BARC.

BARC

BARC

BARC is one of Europe's leading analyst firms for business software, focusing on the areas of data, business intelligence (BI) and analytics. The company was founded in 1999 as a spin-off of the chair of Business Administration and Information Systems at the University of Würzburg, Germany. Today, BARC combines empirical and theoretical research, technical expertise and practical experience, and a constant exchange with all market participants to provide market-leading research publications, events and advisory.

Research

BARC user surveys, software tests and analyst assessments in blogs and research notes give you

the confidence to make the right decisions. Our independent research gets to the heart of market developments, evaluates software and providers thoroughly and gives you valuable ideas on how to turn data, analytics and AI into added value and successfully transform your business.

Consulting

The BARC Advisory practice is entirely focused on translating your company's requirements into future-proof decisions. The holistic advice we provide will help you successfully implement your data & analytics strategy and culture as well as your architecture and technology. Our goal is not to stay for the long haul. BARC's research and

experience-founded expert input sets organizations on the road to the successful use of data & analytics, from strategy to optimized data-driven business processes.

Events

Leading minds and companies come together at our events. BARC conferences, seminars, round-table meetups and online webinars provide more than 10,000 participants each year with information, inspiration and interactivity. By exchanging ideas with peers and learning about trends and market developments, you gain new impetus for your business.
