

CLASS DESCRIPTION

ONESTREAM ESSENTIALS

Building Basic Reports

The Building Basic Reports course provides a live, hands-on overview of the basic concepts of creating and working with reports. This includes use cases for reporting in OneStream, connecting reports to application design, building a simple cube, and using the Member Filter Builder. In addition, this course covers Cube View performance, formatting, calculations, parameters, parameter types, report books, and Quick Views.

Learning Objectives

After completing this course, learners will be able to:

- ✓ List the use cases for reporting and report tools
- ✓ Recognize how metadata and reporting is connected
- ✓ Build a simple Cube View
- ✓ Identify how the Member Filter Builder affects reporting
- ✓ Use simple calculations and parameters in reporting
- ✓ Create financial statements through report books
- ✓ Use Spreadsheet/Excel Add-In to create reports

Who Should Take This Course

This course is intended for all users of OneStream responsible for creating or working with reports.
